-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: reference number 13 of figure 1. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Figueroa [US 5,192,129] in view of Azuma [US 5,161,880].

Regarding claims 1, 9 and 13, Figueroa discloses a direct backlight module having a reflecting plate [10], a first triangular protrusion [27B], a planar surface [12a], a second triangular protrusion [21a], and an illumination tube [1] (figures 1 and 3).

Figueroa does not disclose the diffuser.

Azuma discloses a diffuser [27] to diffuse light (figures 3-4).

It would have been obvious to a person of ordinary skill in the art at the time the invention was made to modify the diffuser of Azuma in the backlight module to diffuse light for purpose of providing a uniform light distribution.

Regarding claims 2, 10 and 14, Figueroa discloses a height of the second triangular [21a] being greater than that of the first triangular [27B] (figure 3).

Regarding claim 3, Figueroa discloses the first reflecting portion [27B] being a curved surface (figure 6).

Regarding claim 4, Figueroa discloses a first triangular protrusion [27B] (figure 3).

Regarding claim 5, Figueroa discloses a planar surface [12a] (figure 3).

Regarding claim 6, Figueroa discloses a third triangular protrusion [21a] (figure 3).

Regarding claims 7, 11 and 15, Azuma discloses a prism [28] (figures 3-4).

Regarding claims 8, 12 and 16, Azuma a diffusing plate [30] (figures 3-4).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lewin [US 4,388,675] and Mephram et al. [US 5,253,151] discloses a backlight module with reflector.
